

Live Longer, Work Longer

[

Organización de Cooperación y Desarrollo Económico

OECD Publishing,
2006

Monografía

This report helps establish a new agenda for age-friendly employment policies and practices. It sets out the policy challenges presented by rapidly ageing labour forces in OECD countries and draws out the main lessons learned from OECD's series of country reviews on Ageing and Employment policies. Among other issues, it discusses how to remove work disincentives and increase choice in the work-retirement decision, improve employability of older workers, and change employer attitudes and employment practices
