Chemical processes

Mathematical optimization

Chemical engineering

Monografía

"For reasons both financial and environmental, there is a perpetual need to optimize the design and operating conditions of industrial process systems in order to improve their performance, energy efficiency, profitability, safety and reliability. However, with most chemical engineering application problems having many variables with complex inter-relationships, meeting these optimization objectives can be challenging. This is where Multi-Objective Optimization (MOO) is useful to find the optimal trade-offs among two or more conflicting objectives. This book provides an overview of the recent developments and applications of MOO for modeling, design and operation of chemical, petrochemical, pharmaceutical, energy and related processes. It then covers important theoretical and computational developments as well as specific applications such as metabolic reaction networks, chromatographic systems, CO₂ emissions targeting for petroleum refining units, ecodesign of chemical processes, ethanol purification and cumene process design. Multi-Objective Optimization in Chemical Engineering: Developments and Applications is an invaluable resource for researchers and graduate students in chemical engineering as well as industrial practitioners and engineers involved in process design, modeling and optimization"--

Título: Multi-objective optimization in chemical engineering [Recurso electrónico] :] developments and applications edited by Gade Rangaiah, Adrián Bonilla-Petriciolet

Editorial: Chichester [England] Wiley 2013

Descripción física: xvi, 512 p. ill

Mención de serie: E-Libro

Bibliografía: Includes bibliographical references and index

Contenido: pt. 1. Overview -- pt. 2. Multi-objective optimization developments -- pt. 3. Chemical engineering applications

Detalles del sistema: Modo de acceso: World Wide Web

Fuente de adquisición directa: E-Libro

ISBN: 9781118341667 hardback) 9781118341698 e-book)

Autores: Rangaiah, Gade Pandu Bonilla-Petriciolet, Adrian
