**Título:** Salience in sociolinguistics Recurso electrónico] a quantitative approach Péter Rácz

**Descripción física:** 1 online resource (183 pages) illustrations

**Mención de serie:** Topics in English linguistics 1434-3452 84 E-Libro

**Nota general:** Originally presented as the author's thesis (doctoral)--Universität Freiburg im Breisgau Description based on print version record

**Bibliografía:** Includes bibliographical references and index

**Contenido:** Preliminaries -- Salience and linguistic Variation -- Lexical reference and social indexation -- Concepts and notations -- Salience as low probability -- Structure of the book -- Methodology -- Chapter structure -- The case studies -- Concluding remarks -- Defining Salience -- Salience as a general term -- Salience in sociolinguistics -- Salience in Visual Cognition -- Selective attention in hearing -- Operationalising sociolinguistic salience -- Preliminaries -- Defining salience -- Exemplars and transitional probabilities -- Concluding remarks -- Methodology -- Cognitive salience : main assumptions and considerations -- Cognitive salience : further assumptions -- Step-by-step corpus editing -- Calculating transitional probabilities -- Definite Article Reduction -- Background -- Details of the process -- DAR as a salient variable -- Analysis -- Methods -- Salience from token frequency -- Salience from transitional probability -- Further arguments for phonotactic distinctiveness -- Concluding remarks -- Glottalisation in the South of England -- Background -- Two recent studies -- Salience and glottalisation -- Analysis -- Methods -- The London-Lund Corpus -- The Spoken Corpus of Adolescent London English -- Modelling results -- Concluding remarks -- Hiatus resolution in Hungarian -- Background -- The perception of hiatus resolution : Methods -- The perception of hiatus resolution : Results -- Hiatus resolution and naive linguistic awareness -- Analysis -- Corpus results -- Main points -- Concluding remarks -- Derhoticisation in Glasgow -- Background -- Social stratification and social awareness -- Derhoticisation in Glasgow -- Irl in Glasgow -- Studies on coda/r/ -- Interim Summary -- Analysis -- The FRED study -- Transitional probabilities in coda /r/ realisation -- Concluding remarks -- The operationalisation and relevance of salience -- Salience and models of the lexicon -- The relevance of salience -- The duality of patterning -- Modelling, phonetic Variation and indexation -- Summary -- Salience and language change -- Speaker indexation in sound change -- Approachesto Speaker indexation -- Simulations on the role of indexation -- Salience in the propagation of a change -- Glottalisation in England -- Derhoticisation in Scotland -- Concluding remarks -- Conclusions -- The source of salience -- From

cognitive properties to language use -- Consequences for phonological modelling -- The predictability of salience -- Types of phonological change -- Consonants and vowels -- Overview -- Concluding remarks -- Bibliography --) Index)

**Versión original:** Print version Rácz, Péter. Salience in sociolinguistics : a quantitative approach. Berlin ; Boston : De Gruyter Mouton, 2013 xvi, 167 pages : illustrations ; 24 cm = Topics in English linguistics ; 84.,. 9783110304329

**Detalles del sistema:** Modo de acceso: World Wide Web

**Fuente de adquisición directa:** E-Libro

**ISBN:** 9783110305395 e-book) 9783110304329
