

# Molecular, Clinical and Environmental Toxicology [ Volume 3: Environmental Toxicology /

Luch, Andreas

Springer Basel :  
Imprint: Springer,  
2012

Monografía

Environmental Toxicology is the third volume of a three-volume set on molecular, clinical and environmental toxicology that offers a comprehensive and in-depth response to the increasing importance and abundance of chemicals of daily life. By providing intriguing insights far down to the molecular level, this three-volume work covers the entire range of modern toxicology with special emphasis on recent developments and achievements. It is written for students and professionals in medicine, science, public health or engineering who are demanding reliable information on toxic or potentially harmful agents and their adverse effects on the human body

**Título:** Molecular, Clinical and Environmental Toxicology [Recurso electrónico-En línea] Volume 3: Environmental Toxicology edited by Andreas Luch

**Editorial:** Basel Springer Basel Imprint: Springer 2012

**Descripción física:** XII, 574 p. 46 illus., 8 illus. in color. digital

**Tipo Audiovisual:** Medicine Toxicology Biomedicine Pharmacology/Toxicology

**Mención de serie:** Experientia Supplementum 1023-294X 101

**Documento fuente:** Springer eBooks

**Nota general:** Biomedical and Life Sciences (Springer-11642)

**Contenido:** Chemical hazards in the organization -- Toxicology of water -- Perfluorinated compounds -- Toxicologically relevant phthalates in food -- Exposure to polycyclic aromatic hydrocarbons: bulky DNA adducts and cellular responses -- Heavy metals toxicity and the environment -- Toxicology of ambient particulate matter -- Nanomaterials: a challenge for toxicological risk assessment? Immunotoxicology and its application in risk assessment -- Chemical sensitization and allergotoxicology -- Male reprotoxicity and endocrine disruption -- Interspecies uncertainty in molecular responses and toxicity of mixtures -- Recent trends in QSAR modeling of

environmental chemical toxicity -- Chirality and its role in environmental toxicology -- Genetic variability in molecular responses to chemical exposure -- Biomarkers in toxicology and risk assessment -- A personalized life: biomarker monitoring from cradle to grave -- Low dose effects and epigenetics -- Hormesis: improving predictions in the low dose zone

**Restricciones de acceso:** Accesible sólo para usuarios de la UPV

**Tipo recurso electrónico:** Recurso a texto completo

**Detalles del sistema:** Forma de acceso: Web

**ISBN:** 9783764383404 978-3-7643-8340-4

**Entidades:** SpringerLink (Servicio en línea)

**Enlace a formato físico adicional:** Printed edition 9783764383398

**Punto acceso adicional serie-Título:** Experientia Supplementum 1023-294X 101
