

'Greek' and 'Roman' in Latin medical texts [studies in cultural change and exchange in ancient medicine /

Maire, Brigitte,

Brill,
[2014]

Monografía

Latin medical texts transmit medical theories and practices that originated mainly in Greece. 'Greek' and 'Roman' in Latin Medical Texts studies the ways in which this cultural interaction led to innovations in the areas of anatomy, pathology and pharmacology, from the earliest Latin medical texts until well into the medieval world
