Monografía

Título: Bio-inspired Structured Adhesives Recurso electrónico] Biological Prototypes, Fabrication, Tribological Properties, Contact Mechanics, and Novel Concepts edited by Lars Heepe, Longjian Xue, Stanislav N. Gorb

Editorial: Cham Springer International Publishing Imprint: Springer 2017

Descripción física: XVIII, 348 p. 197 il., 79 il. col

Mención de serie: Biologically-Inspired Systems 2211-0593 9

Detalles del sistema: Modo de acceso: world wide web

Fuente de adquisición directa: Springer (e-Books)

ISBN: 9783319591148 9783319591131

Autores: Heepe, Lars., ed. lit Xue, Longjian., ed. lit Gorb, Stanislav N., ed. lit

Punto acceso adicional serie-Título: Biomedical and Life Sciences (Springer Books)
