Recurso Continuo

Regional Sustainability is an international peer-reviewed open access journal publishing high-quality articles in multi-disciplinary and interdisciplinary subjects relating to sustainability. The journal advances our understanding of the sustainability dimensions of environmental protection, economic development and social development from local to global scales. It publishes theoretical and experimental research papers on resources exploitation and utilization, urbanization and regional sustainable development, urbanization and informatization, man-land relationship and regional differential, population migration and society transformation, and spatial layout and optimization of human activity
