Electronic books

Monografía

Urologic laparoscopy is in the midst of a clinical resurgence that has prompted many urologists to seek new training in the technique. In *Essential Urologic Laparoscopy: The Complete Clinical Guide*, a panel of urologists and physicians distinguished by their clinical expertise in procedural laparoscopy detail how to perform the major urologic laparoscopic procedures. The authors offer clear, concise chapters focusing on getting started, laparoscopic instrumentation, and step-by-step procedural adult laparoscopy. Each chapter is organized so that the reader can easily identify the key points and pitfalls, with the instrumentation chapter completely cross-referenced so that operating room and hospital personnel can use the book as a comprehensive reference guide for most laparoscopic procedures. The procedures detailed range from the simple (renal cyst decortication, pelvic lymph node dissection, and simple nephrectomy) to the advanced (adrenalectomy, partial nephrectomy, radical nephroureterectomy, live donor nephrectomy, and pyeloplasty). The transperitoneal, retroperitoneal, and hand-assisted approaches to laparoscopic radical nephrectomy-the gold standard for most renal pathology-are fully described by those pioneers who have championed them. In addition, the latest cutting-edge procedures such as laparoscopic radical prostatectomy and laparoscopic cystectomy with urinary diversion are detailed. Easy-to-use and highly practical, *Essential Urologic Laparoscopy: The Complete Clinical Guide* provides a comprehensive guide to performing effective and cutting-edge urologic laparoscopy-the key to creating, maintaining, and expanding a successful practice in minimally invasive urologic surgery today

Título: Essential urologic laparoscopy electronic resource] the complete clinical guide edited by Stephen Y. Nakada

Editorial: Totowa, N.J. Humana Press c2003

Descripción física: 1 online resource (322 p.)

Mención de serie: Current clinical urology

Nota general: Description based upon print version of record

Bibliografía: Includes bibliographical references and index

Contenido: 1 Getting Started in Laparoscopy -- 2 Laparoscopic Instrumentation -- 3 Operating Room Set-Up and Accessing the Abdomen -- 4 Laparoscopic Pelvic Lymphadenectomy -- 5 Laparoscopic Renal Cyst Decortication -- 6 Laparoscopic Simple Nephrectomy: Transperitoneal and Retroperitoneal Approaches -- 7 Laparoscopic Radical

Nephrectomy: Retroperitoneal Approach -- 8 Laparoscopic Radical Nephrectomy: Transperitoneal Approach -- 9
Laparoscopic Radical Nephrectomy: Hand-Assisted -- 10 Laparoscopic Partial Nephrectomy -- 11 Laparoscopic
Nephroureterectomy -- 12 Laparoscopic Adrenalectomy -- 13 Laparoscopic Live Donor Nephrectomy -- 14
Laparoscopic Pyeloplasty -- 15 Laparoscopic Radical Cystectomy and Urinary Diversion -- 16 Laparoscopic
Radical Prostatectomy: Transperitoneal Approach -- 17 Postoperative Management and Complications of
Laparoscopy
