---

**Título:** Comparison of multispectral remote-sensing techniques for monitoring subsurface drain conditions Robert C. Goettelman [and others]

**Editorial:** Washington, D.C. National Aeronautics and Space Administration, Scientific and Technical Information Branch [Springfield, Va.] [For sale by the National Technical Information Service] 1983

**Descripción física:** 1 online resource (16 pages) illustrations

**Mención de serie:** NASA technical memorandum 84317

**Nota general:** Distributed to depository libraries in microfiche "May 1983"--Cover Subject category 43

**Bibliografía:** Includes bibliographical references

**Materia:** Multispectral imaging Remote sensing- United States Aerial photography in agriculture- United States Photographie multibande Télédétection- États-Unis Photographie aérienne en agriculture- États-Unis Drainage- États-Unis- Télédétection Aerial photography in agriculture Multispectral imaging Remote sensing

**Materia Geográfica:** Estados Unidos

**Autores:** Goettelman, Robert C.

**Entidades:** Estados Unidos. National Aeronautics and Space Administration. Scientific and Technical Information Branch

**Enlace a formato físico adicional:** Print version Comparison of multispectral remote-sensing techniques for monitoring subsurface drain conditions. Washington, D.C. : National Aeronautics and Space Administration, Scientific and Technical Information Branch ; [Springfield, Va.] : [For sale by the National Technical Information Service], 1983 (OCoLC)10556065

**Punto acceso adicional serie-Título:** NASA technical memorandum 84317
