

Effects of Hurricane Andrew on natural and archeological resources : Big Cypress National Preserve, Biscayne National Park, Everglades National Park /

Davis, G. E.

U.S. Dept. of the Interior, National Park Service, Natural Resource Program Center, Natural Resource Information Division ; Available from the National Technical Information Service, 1996.

Technical report

Monografía

This report describes the conditions and effects of Hurricane Andrew on the resources of three national park system units in South Florida--Big Cypress National Preserve, Biscayne National Park, and Everglades National Park. It also recommends specific actions for the immediate and long-term protection of threatened resources and subsequent collection of data that will help the National Park Service to better understand the effects of human and natural disturbances on those parks' resources
