Resum: This study addresses the new Directive 2014/42/EU of the European Parliament and of the Council of 3 April 2014 on the freezing and confiscation of instrumentalities and proceeds of crime in the European Union. In addition to dealing with issues such as its scope of application or of some of its definitions, we carry out an analysis of the regulation of the various forms of confiscation and the freezing, from the perspective of the fundamental rights and principles, in particular, of the principle of proportionality.
