Monografía

The publication in 1881 of *The New Testament in the Original Greek*, by the Cambridge scholars Brooke Foss Westcott (1825-1901) and Fenton John Anthony Hort (1828-92), marked the culmination of twenty-eight years of work and revolutionised the theory and methods of New Testament textual criticism. The editors broke with tradition and reconstructed a critical text based on the third-century uncial manuscripts Codex Vaticanus and Codex Sinaiticus, paving the way for future editions. Westcott and Hort's claim to reconstruct the 'original text' may seem extravagant today; but according to Bruce Metzger theirs was the 'most noteworthy critical edition of the Greek Testament ever produced by British scholarship'
