

2008 ACSM Annual Meeting - Select Symposium - Structural Versus Functional Vascular Adaptation to Exercise in Humans /

Lecture/presentation

Material Projectable

The (3) presentations from the Select Symposium at the 2008 ACSM annual meeting on the relationship between exercise and vascular structure and function are included on a single DVD. Almost two hours of authoritative information and insights, featuring: History of Measures of Vascular Structure and Function in Humans (Michael J. Joyner), Structural and Functional Vascular Adaptations to Exercise Training in Human Conduit and Resistance Vessels (Daniel J. Green), Coronary Adaptations to Exercise (Dirk J. Duncker)
