**Título:** Advances in genetics. Vol. 15 electronic resource] edited by E.W. Caspari

**Editorial:** New York Academic Press 1970

**Descripción física:** 1 online resource (421 p.)

**Mención de serie:** Advances in genetics

**Nota general:** Description based upon print version of record

**Bibliografía:** Includes bibliographical references and indexes

**Contenido:** Front Cover; Advances in Genetics, Volume 15; Copyright Page; Contents; Contributors to Volume 15; Chapter 1. Recombination in Bacteriophage T4; I. Introduction; II. The Chromosome; III. The Genetic Map; IV. The Mechanism of Recombination; V. Summary; References; Note added in proof; Chapter 2. The Genetic Basis of Natural Variation in *Drosophila melanogaster*; I. Introduction; II. The Four Sources of Phenotypic Variation; III. The Phenotypic Expression of Genetic Variation; IV. The Posterior Crossvein in *Drosophila*; V. Enzyme Electrophoresis and Allelic Variation VI. The Maintenance of Genetic Variation VII. The Amount of Genetic Variation; References; Chapter 3. Tumorous Head in *Drosophila*; I. Introduction; II. History of Tumorous-Head Strain; III. Tumorous-Head Phenotype; IV. Genetics of Maternal Effects; V. Location of Major Genes; VI. Behavior of Inversion in Populations; VII. Alleles of *tu-1* in Laboratory Stocks and Natural Populations; VIII. Modifiers of *tu-3*; IX. Genetic Divergence in Laboratory Stocks; X. Melanotic Tumors in *tu-h* Stocks; XI. Developmental Studies; XII. Biochemical Studies on Tumorous-Head Flies; XIII. Related Phenotypes XIV. SummaryReferences; Chapter 4. Identity and Nomenclature of some Protein Polymorphisms of Chicken Eggs and Sera; I. Introduction; II. Materials and Methods; III. Terminology for Protein Polymorphisms; IV. Description of Proteins; V. Discussion; References; Chapter 5. X-Autosome Translocations in the Mouse: Total Inactivation versus Partial Inactivation of the X Chromosome; I. Introduction; II. The Known Translocations: Description and Phenotypes; III. Centromere Locations in L.G. I, L.G. VIII, and the X Chromosome; IV. Hypotheses and Problems concerning Activation and Inactivation V. A Physical Integrity or a Memory System for the Determination of Activation or Inactivation?VI. Heterochromatization of the X Chromosome: A Mechanism; VII. Primary

Nonrandom Inactivation; VIII. Reversal of Inactivation; IX. Combining the Effects of X-Linked Genes with Influenced Autosomal Genes; X. Secondary Nonrandom Inactivation; XI. Heteropycnoesis, Late-Replication, and Gene Activity; XII. Conclusions; References; Chapter 6. The Genetics of Embryogenesis in Drosophila; I. Introduction; II. Lethal Factors and the Classic Approach to Developmental Genetics III. Generalizations Generated by the Classic Approach IV. Genes That Repress the Expression of Developmental Potential; V Some Additional Genetic Aspects; VI. Biochemical Aspects; VII. Assessment of the Drosophila Embryo as an Experimental System; VIII. Conclusion; Appendix: Genetic Variations That Affect Embryogenesis in Drosophila; References; Author Index; Subject Index

**Lengua:** English

**ISBN:** 1-281-45631-4 9786611456313 0-08-056802-5

**Materia:** Genetics

**Autores:** Caspari, Ernst W.

**Enlace a serie principal:** Advances in genetics (CKB)954926956852 (DLC)2011233068 (OCoLC)61765346

**Enlace a formato físico adicional:** 0-12-017615-7

**Punto acceso adicional serie-Título:** Advances in genetics
