Título: Weekly synoptic analyses 5-, 2-, and 0.4-millibar surfaces for 1967 (based on meteorological rocketsonde and high-level rawinsonde observations) staff, Upper Air Branch, National Meteorological Center

Editorial: Hillcrest Heights, Md. U.S. Dept. of Commerce, Environmental Science Services Administration, Weather Bureau, National Meteorological Center 1970

Descripción física: 1 online resource (iii, 169 pages) maps

Mención de serie: ESSA technical report WB 12

Nota general: "January 1970." "This report was prepared with support of the National Aeronautics and Space Administration under contract P-40346(G)."

Materia: Synoptic meteorology Upper atmosphere- Northern Hemisphere- Rawinsonde observations Upper atmosphere- Northern Hemisphere- Rocket observations Atmospheric pressure- Northern Hemisphere- Observations Atmospheric temperature- Northern Hemisphere- Observations Atmospheric circulation- Northern Hemisphere- Observations Aeronautics in meteorology Aeronautics in meteorology Upper atmosphere Atmospheric circulation Atmospheric pressure Atmospheric temperature Synoptic meteorology

Materia Geográfica: Northern Hemisphere

Entidades: National Meteorological Center (U.S.). Upper Air Branch

Enlace a formato físico adicional: Print version Weekly synoptic analyses 5-, 2-, and 0.4-millibar surfaces for 1967 (based on meteorological rocketsonde and high-level rawinsonde observations).
