Monografía

"This detailed Commentary provides an authoritative interpretation of each provision in the main EU Directive on public procurement - Directive 2014/24/EU, and is rich in its critical analysis of the provisions of the 2014 Directive and the case-law. The Commentary also highlights the application problems and interpretative issues being raised in EU Member States, which in due time will make their way up to the CJEU or even require further legislative interventions."
