Monografía

Allergy is the most frequent chronic disease in the 21st century having severe negative effects on health and the economy. The challenge we therefore face in medicine and science incorporates all areas of society â from politics to food industry, from schools to city planning, and many more. This volume informs the reader about continuously ongoing developments in allergy research and their implications for society. The chapter sections cover the immunological mechanisms in allergy on a molecular level, describe the triggers and cures for allergy in detail, entail clinical translation of lab findings on allergens, evaluate diagnostics for allergy markers, and provide solutions for future medical intervention or preventive strategies. Laboratory research, bioinformatics, climate modelling, patient treatment, intervention studies, epigenetics and multiple other disciplines are able to shed new light on this revolutionary field of healthcare.

Título: Allergic Diseases â From Basic Mechanisms to Comprehensive Management and Prevention electronic resource] edited by Claudia Traidl-Hoffmann, Torsten Zuberbier, Thomas Werfel.

Edición: 1st ed. 2022

Editorial: Cham Springer International Publishing Imprint: Springer 2022.

Descripción física: XI, 500 p. 70 illus. online resource.

Mención de serie: Handbook of Experimental Pharmacology 1865-0325 268

Documento fuente: Springer Nature eBook

Contenido: Preface -- Part I: History and Epidemiology -- Part II: General Mechanisms -- Part III: Symptoms and Diseases -- Part IV: From Environmental Trigger to Disease Management -- Part V: Specific Mechanisms -- Part VI: Risk Factors -- Part VII: Diagnostics -- Part VIII: Allergy Prevention.

ISBN: 9783030840488 978-3-030-84048-8

Materia: Pharmacology. Allergy. Pharmacology. Allergology.

Autores: Traidl-Hoffmann, Claudia., editor. ed. <http://id.loc.gov/vocabulary/relators/edt> Zuberbier, Torsten, editor. ed. <http://id.loc.gov/vocabulary/relators/edt> Werfel, Thomas., editor. ed. <http://id.loc.gov/vocabulary/relators/edt>
