

## Assessment for learning. 1, Secondary Maths and English : APP in action /

Teachers TV/UK Department of Education,  
2009

Instructional television programs

Material Projectable

In Year 7, head of maths Kate Apperley uses the APP guidelines to help her plan a lesson where she can assess her students' understanding of area and perimeter. In a Year 8 English class, head of English Katherine Burridge guides the students in identifying the level they are working at, and what they need to do to progress to the next level. The teachers use nationally available APP materials in addition to a spreadsheet which was created locally to record the levels at which each pupil in the class is working
