Analítica

In this paper, we analyze some poems of *En las orillas del Sar*, in order to highlight the resources which dramatize the inner struggle of a problematic subject. We show that through some devices (such as multiperspectivism, irony and dialogue), the lyrical voice -floating through the literary atmosphere and influences of the time- represents the conflicting thoughts of a poetic "I" harassed by doubts, critically questioning and struggling between contrasting truths and dealing with the words of others
