Música

"The 3-dimensional graphic scores used on the album *Star System* are subsets of the Hayward Tuning Vine, which arose out of a desire to visualise the harmonic space implicit within the microtonal tuba. Each of the balls represent pitches, and the struts between them musical intervals. In *Star System* (side A), the musicians orbit once around the star-like structure, revealing the harmonic space implicit within it. In *Square Dance* (side B), the various squares and rectangles within the score are gradually explored by the musicians, analogous to a slow dance through harmonic space." (cubierta posterior)
