**Título:** Cellular mechanisms of the neural crest epithelial-mesenchymal transformation analyzed using time-lapse, live-cell imaging by Jon David Ahlstrom

**Editorial:** 2008

**Descripción física:** 1 online resource (105 leaves) illustrations

**Nota general:** Degree granted in Cell and Developmental Biology Dissertation completed in 2008; degree granted in 2009

**Tesis:** Ph. D. University of California, Davis 2009

**Enlace a formato físico adicional:** Print version Ahlstrom, Jon David. Cellular mechanisms of the neural crest epithelial-mesenchymal transformation analyzed using time-lapse, live-cell imaging. 2008 (OCoLC)526790704
