Assess and build your knowledge of critical care nursing with this powerful review tool from the American Association of Critical-Care Nurses. Based on the sixth edition of Core Curriculum for Critical Care Nursing, this book is an ideal study tool to facilitate preparation for critical care nursing certification. The book consists of three 150-question sample examinations that provide extensive practice and review key content. An in-depth rationale, complete with references, is included for each question. Written under the authority of the American Association for Critical-Care Nurses (AACN), this book is an ideal study tool to facilitate preparation for critical care nursing certification. - Publisher
