Just how stupid can one book be? Find out by reading "Amazingly Stupid MAD: Expanded Edition!" We've gone to great lengths to create the biggest and stupidest collection of articles from the pages of MAD Magazine (trust us, it's a crowded field). Its stupidity-enriched contents feature 192 pages of classic MAD articles in full color, including: Spy vs Spy! Planet Tad! Spider-Man Funnies! Satires of "Star Wars" movies! The Dwayne Chronicles! History's most famous boogers! Everyday pet peeves of Transformers! Spoofs of Lemony Snicket! Classics by Sergio Aragonés and Don Martin! Articles on zombies, flatulence, kitty litter, penguins, and summer school! You have our guarantee that no IQs were elevated in the making of this book
