Monografía

To celebrate the Center for Perinatal Biology's 40th Anniversary, an illustrious group gathered at Loma Linda University in February 2013. That gathering of experts and this volume of the proceedings are a tribute to the founder of the Center, Lawrence D. Longo, M.D. These chapters present contributions from individuals who in some way or another were influenced by Dr. Longo. Covering a wide range of topics, and illustrating the diversity of thinking and scientific interests, these proceedings address basic science through to clinical problems in the developmental programming of health and disease

**Título:** Advances in Fetal and Neonatal Physiology [Recurso electrónico] :] Proceedings of the Center for Perinatal Biology 40th Anniversary Symposium edited by Lubo Zhang, Charles A. Ducsay

**Editorial:** New York, NY Springer New York Imprint: Springer 2014

**Editorial:** New York, NY Springer New York 2014

**Descripción física:** XX, 245 p. 61 il., 15 il. col

**Mención de serie:** Advances in Experimental Medicine and Biology 814

**Nota general:** Description based upon print version of record

**Bibliografía:** Includes bibliographical references and index at the end of each chapters

**Contenido:** "Surprised by Joy" - Four Decades of Contributions to Developmental Physiology -- sGC-cGMP Signaling: Target for Anticancer Therapy -- Lawrence D. Longo. From Chronic Fetal Hypoxia to Proteomic Predictors of Fetal Distress Syndrome: A life devoted to research and mentoring based on virtue-ethics -- Pregnancy Programming and Preeclampsia: Identifying a Human Endothelial Model to Study Pregnancy-Adapted Endothelial Function and Endothelial Adaptive Failure in Preeclamptic Subjects -- Regulation of Amniotic Fluid Volume: Evolving Concepts -- Gestational Diabetes, Preeclampsia and Cytokine Release: Similarities and Differences in Endothelial Cell Function -- Heart Disease Link to Fetal Hypoxia and Oxidative Stress -- Fetal Breathing Movements and Changes at Birth -- From Fetal Physiology to Gene Therapy - It All Started in Loma Linda -- 30+ Years of Exercise in Pregnancy -- Gap Junction Regulation of Vascular Tone: Implications of Modulatory Intercellular Communication during Gestation -- Effect of Preeclampsia on Placental Function: Influence of Sexual Dimorphism, microRNA's and Mitochondria -- Altitude, Attitude and Adaptation -- The Separation of Sexual Activity and Reproduction in Human Social Evolution -- The Influence of Growth Hormone on Bone and Adipose Programming -- The Fetal Cerebral Circulation: Three Decades of Exploration by the LLU Center for Perinatal Biology -- Placental Vascular Defects in Compromised Pregnancies: Effects of Assisted Reproductive Technologies and Other Maternal Stressors -- How to Build a Healthy Heart from Scratch -- Estrogen in the Fetus -- Calcitonin Gene Related Family Peptides: Importance in Normal Placental and Fetal Development

**Lengua:** English

**ISBN:** 9781493910311 9781493910328 9781493910304 9781493948697

**Materia:** Human physiology Reproductive Medicine Embryology Human Physiology Reproductive Medicine Embryology

**Autores:** Zhang, Lubo, ed. lit Ducsay, Charles A, ed. lit

**Congresos:** Advances in Fetal and Neonatal Physiology (Symposium)

**Enlace a formato físico adicional:** 1-4939-1030-2

**Punto acceso adicional serie-Título:** Advances in Experimental Medicine and Biology 814
