Computer vision Engineering Signal, Image and Speech Processing

Image Processing and Computer Vision Computational Intelligence

Monografía

The book focuses on an image processing technique known as binarization. It provides a comprehensive survey over existing binarization techniques for both document and graphic images. A number of evaluation techniques have been presented for quantitative comparison of different binarization methods. The book provides results obtained comparing a number of standard and widely used binarization algorithms using some standard evaluation metrics. The comparative results presented in tables and charts facilitates understanding the process. In addition to this, the book presents techniques for preparing a reference image which is very much important for quantitative evaluation of the binarization techniques. The results are produced taking image samples from standard image databases

Título: Exploring Image Binarization Techniques [Recurso electrónico] by Nabendu Chaki, Soharab Hossain Shaikh, Khalid Saeed

Editorial: New Delhi Springer India Imprint: Springer 2014

Editorial: New Delhi Springer India 2014

Descripción física: XII, 82 p. 34 il

Mención de serie: Studies in Computational Intelligence 560

Nota general: Bibliographic Level Mode of Issuance: Monograph

Contenido: Introduction -- A Comprehensive Survey on Image Binarization Techniques -- A New Image Binarization Technique using Iterative Partitioning -- A Framework for Creating Reference Image for Degraded Document Images -- Image Binarization and Its Applications -- Conclusions

Lengua: English

ISBN: 9788132219071 9788132219088 9788132219064 9788132228936

Materia: Computer vision Engineering Signal, Image and Speech Processing. Image Processing and Computer Vision. Computational Intelligence.

Autores: Shaikh, Soharab Hossain Saeed, Khalid

Enlace a formato físico adicional: 81-322-1906-6

Punto acceso adicional serie-Título: Studies in Computational Intelligence 560
