Monografía

In this hands-on adventure, eebee and playmates celebrate the fact that every baby learns through play and interaction. On each page, curious toddlers join eebee by exploring big ideas and concepts, including up and down through a game of baby bowling; one, more, and many by playfully ripping a piece of paper to create bright confetti; on and off with a flashlight; wet and dry with a rubber duckie and a towel; and open and closed with this very book
