How can one of the happiest moments of your life turn into one of the worst? After years of separation, Dakota Love has finally been reunited with his older sister. Though he's still harboring hurt and feelings of abandonment, he's willing to give it a try. What he doesn't know is that along with his sister comes even more unexpected havoc. He loves her and wants to rekindle the family bond he misses so much, but how can he when everything in his life is going wrong? Rain is trying her hardest to recover from her attack and enjoy the happiness she'd just received. With the new additions to her family, her days are getting easier until she comes face to face with the person in charge of all of her pain. To be lovers and friends means to have the best of both worlds, that is unless you're Summer and Jacorey. Playing the friend role with lover feelings is a disaster waiting to happen, and neither of them plan to acknowledge it. Caught up in a whirlwind of lies and deceit, Alex is starting to come to terms with his relationships and the impacts they're having on his life. Finally seeing his worth and refusing to accept less, Alex is on the road to happiness until the same love that he's been trying so hard to hold in, is bursting out uncontrollably. It's always easy to love a person when things are good, but loving them through the rain is when it matters most
