Fiction. War fiction. War fiction.

Monografía

The Battle of Britain: the testing time for the pilots of the R.A.F. - and the Luftwaffe. In the skies over the Channel, young men were proving their courage to the enemy, to their comrades, and to themselves... Flying Officer Peter Knight and Lieutenant Erich Hafner had begun to recognise the markings of each other's aircraft. They had clashed in so many dogfights that now both men waited to catch a glimpse of the other's plane: each sought out and stalked his special enemy. And their final deadly dogfight, when it came, shattered the whole of 172 Squadron... An action-packed war thriller pitting one man's personal mission against the fate of the Battle of Britain
