

## The student voice : an introduction to developing the singing voice /

Baldy, Colin

Dunedin Academic,  
2010

Studies (Music)

Studies and exercises.

Studies (Music)

Études (Musique)

Monografía

The book will encourage the student singer. It includes a certain amount of physiology, but not too much, with suggested exercises and methods for developing the correct use of that physiology. It suggests a suitable repertoire to run alongside the exercises and contains a large amount of trouble-shooting advice. The author's intention is to encourage and to assist students to avoid common pitfalls
