publisher

Fiction films. Feature films.

Material Projectable

Rosa (Balletbo-Coll) is an engineer at Wondernapking, a sanitary-pad manufacturer. Sales are down, her friends are getting laid off; the boss offers a massive bonus to anyone who can move 1 billion units in three months. Rosa has a brainstorm: Since women are having shorter menstrual periods due to the stress and discrimination of a male-dominated world, why not get them back to full cycle by making men "disappear"?
