Ernst Schering Research Foundation Workshop 24 Molecular Basis of Sex Hormone Receptor Function
Editors: H. Gronemeyer, U. Fuhrmann, K. Parczyk How sex hormone receptors and all of the other members of the nuclear receptor superfamily can do such a remarkable job has fascinated scientists for decades. A series of discoveries in the past few years has dramatically enlightened our understanding of the molecular mechanisms that govern nuclear receptor action. The Ernst Schering Research Foundation Workshop 24 presents the latest findings and current view of the "Molecular basis of sex hormone receptor function."
