This advanced EURACHEM textbook is designed for training, teaching and continuing studies providing an in-depth but easy to understand coverage of Quality Assurance in Chemical Measurement. The CD-ROM accompanying the book contains course materials of 10 experienced specialists in the field with more than 750 overheads (graphics and text) as ready-to-use PowerPoint documents. The book will serve as an advanced textbook for analytical chemistry students and professionals in industry and service labs and as a reference text and source of course materials for lecturers
