

## Watchdog report

United States.  
Government Accountability Office,  
author

Podcasts. Interviews (Sound recordings)

Registro Sonoro

Presents interviews with U.S. Government Accountability Office (GAO) officials who report on GAO investigations that range from the practices, regulations, and resources of Federal agencies and programs - especially those related to reporting, hiring, and effective service delivery - to emerging technologies in government services, threats to public health and safety, and needed reforms in government. Audio presentations typically run between four and six minutes, with the exception of "Big Bite" features that run between fifteen and thirty minutes. All sound files are accompanied by links to related, online GAO resources that include full and summary reports of the investigations that are the bases for these interviews
