Monografía

Jerry Cornelius?Michael Moorcock?s fictional audacious assassin, rockstar, chronospy, and possible Messiah? is featured in the first of two stories in this fifth installment of the Outspoken Author series. Previously unpublished, the first story is an odyssey through time from London in the 1960s to America during the years following Barack Obama's presidency. The second piece is a political, confrontational, comical, nonfiction tale in the style of Jonathan Swift and George Orwell. An interview with the author rounds out this biting, satirical, sci-fi collection
