"Twelve-step" recovery programs for a wide variety of addictive behaviors have become tremendously popular in the 1990s. According to John W. Crowley, the origin of these movements--including Alcoholics Anonymous--lies in the Washingtonian Temperance Society, founded in Baltimore in the 1840s. In lectures, pamphlets, and books (most notably John B. Gough's *Autobiography*, published in 1845), recovering "drunkards" described their enslavement to and liberation from alcohol. Though widely circulated in their time, these influential temperance narratives have largely been forgotten. In *Drunkard's Progress*, Crowley presents a collection of revealing excerpts from these texts along with his own introductions. The tales, including "The Experience Meeting," from T.S. Arthur's *Six Nights with the Washingtonians* (1842), and the autobiographical *Narratives of Charles T. Woodman, A Reformed Inebriate* (1843), still speak with surprising force to the miseries of drunkenness and the joys of deliverance. Contemporary readers familiar with twelve-step programs, Crowley notes, will feel a shock of recognition as they relate to the experience, strength, and hope of these old-time--but nonetheless timely--narratives of addiction, despair, and recovery. -- Back cover
