

Asymptotic methods in probability and statistics [a volume in honor of Miklós Csörgö /

Csörgö, M.
Szyszkowicz, Barbara

Elsevier,
1998

Libros electrónicos

Monografía

One of the aims of the conference on which this book is based, was to provide a platform for the exchange of recent findings and new ideas inspired by the so-called <IT>Hungarian construction</IT> and other approximate methodologies. This volume of 55 papers is dedicated to Miklós Csörgö; a co-founder of the <IT>Hungarian construction school</IT> by the invited speakers and contributors to ICAMPS'97. This excellent treatise reflects the many developments in this field, while pointing to new directions to be explored. An unequalled contribution to research in probability and statistics

Título: Asymptotic methods in probability and statistics [Recurso electrónico] :] a volume in honor of Miklós Csörgö edited by Barbara Szyszkowicz

Edición: 1st ed

Editorial: Amsterdam New York Elsevier 1998

Descripción física: xxxiii, 889 p. ill. 25 cm

Mención de serie: Books on ScienceDirect

Nota general: Papers from an International Conference on Asymptotic Methods in Probability and Statistics, held at Carleton University, Ottawa, Canada, 8-13 July, 1997

Bibliografía: Includes bibliographical references

Contenido: Part 1: Limit Theorems for variously mixing and quasi-associated random variables. -- Part 2: Central limit theorems for logarithmic averages. -- Part 3: Strong approximations, weighted approximations. -- Part 4: Empirical distributions and processes. -- Part 5: Iterated random walks. -- Part

Restricciones de acceso: Acceso restringido a miembros del Consorcio de Bibliotecas Universitarias de Andalucía

Detalles del sistema: Modo de acceso: World Wide Web

Fuente de adquisición directa: ScienceDirect (M)

ISBN: 9780444500830 0444500839

Materia: Probabilities- Congresses Mathematical statistics- Congresses Asymptotic expansions- Congresses

Autores: Csörgö, M. Szyszkowicz, Barbara

Congresos: International Conference on Asymptotic Methods in Probability and Statistics 1997 :. Carleton University)
