 Science   Computer-Aided Engineering (CAD, CAE) and Design   Computer  
 Applications in Chemistry   Industrial Chemistry/Chemical Engineering  
 Simulation and Modeling   Special Purpose and Application-Based Systems

Monografía

IMPROVE stands for "Information Technology Support for Collaborative and Distributed Design Processes in Chemical Engineering" and is a large joint project of research institutions at RWTH Aachen University. This volume summarizes the results after 9 years of cooperative research work. The focus of IMPROVE is on understanding, formalizing, evaluating, and, consequently, improving design processes in chemical engineering. In particular, IMPROVE focuses on conceptual design and basic engineering, where the fundamental decisions concerning the design or redesign of a chemical plant are undertaken. Design processes are analyzed and evaluated in collaboration with industrial partners

**Título:** Collaborative and Distributed Chemical Engineering. From Understanding to Substantial Design Process Support [Recurso electrónico] Results of the IMPROVE Project edited by Manfred Nagl, Wolfgang Marquardt

**Editorial:** Berlin, Heidelberg Springer Berlin Heidelberg 2008

**Descripción física:** digital

**Mención de serie:** Lecture Notes in Computer Science 0302-9743 4970

**Documento fuente:** Springer eBooks

**Restricciones de acceso:** Acceso restringido a miembros del Consorcio de Bibliotecas Universitarias de Andalucía

**Detalles del sistema:** Modo de acceso: World Wide Web

**Fuente de adquisición directa:** Springer (CS)

**ISBN:** 9783540705529 978-3-540-70552-9 9783540705512 ed. impresa)

**Autores:** Marquardt, Wolfgang

**Entidades:** SpringerLink (Online service)
