

Competencies, higher education, and career in Japan and the Netherlands [

Allen, Jim

Springer,
2007

Llibres electrònics

Monografía

Annotation This book investigates how social and cultural factors affect the education, training and career development of graduates of higher education in Japan and the Netherlands. The aim of this book is to explore how Dutch and Japanese graduates choose and develop their careers in reference to the above-mentioned challenges. It is based on a unique data set consisting of surveys held among graduates three and eight years after leaving higher education
